

Lindsay Alliban ~ Rural Community Enthusiast!

Raised in the heart of the prairies, Hazlet Saskatchewan has been home for Lindsay Alliban for nearly thirty years. After graduating high-school in Hazlet she attended University of Lethbridge, graduating with a Fine Arts Degree, with a major in New Media. Upon graduation, Lindsay moved back to her hometown where she found herself taking a position as an Economic Development Officer. This was a role Lindsay had unknowingly been training for her whole life; breathing life into the community while spurring enthusiasm and encouraging economic growth was a natural fit for a community minded small town girl. Lindsay has been working within the Economic and Community Development field ever since.

Revitalizing a sense of community creating revitalized community atmospheres in rural villages and towns is a passion of Lindsay's. Her work portrays the value she holds in the quality of life found in rural Saskatchewan and believes in the success of rural Saskatchewan people and businesses. Grateful to have had opportunities to work on unique projects such as- Chinook International High School Program, Renewable Energy Community Projects, Youth Outreach and Heritage conservation.

Recently practicing her belief of small town business, Lindsay and, with a partner, opened and operating a live music venue and social house called "The Bethany". This historical building is located in Hazlet, and is being transformed into a beautiful space where the pair dream of strengthening community bonds, bringing art to our community and helping other new businesses and entrepreneurs. This space as already been host to over 20 events.

Lindsay has the outlook that if there is anywhere you can build something from nothing, that small town Saskatchewan is that place. Strong belief that with a little creativity and team work anything can be accomplished in small little villages and towns that we all love so much!
